

# RICO R. TORRES

## SYSTEM ADMINISTRATOR | WEB HOSTING | IT INFRASTRUCTURE

San Jose Del Monte, Bulacan, Philippines | ricordrgz8@gmail.com | +63 924 256 3694

### PROFESSIONAL SUMMARY

System Administrator with hands-on experience in Linux/cPanel hosting, WordPress administration, server migrations, DNS/SSL, backups, endpoint security, infrastructure monitoring, Google Workspace, GLPI, and IT automation. Skilled in SSH-based troubleshooting, incident response, backup/recovery, and technical documentation for production environments.

### CORE TECHNICAL SKILLS

**Linux & Hosting:** Rocky Linux/AlmaLinux, SSH, cPanel/WHM, LiteSpeed, file permissions, log review, rsync/SCP, backup/restore, server health checks

**Web Administration:** WordPress, Cloudflare, DNS, SSL/TLS, GoDaddy, WPMU DEV, plugin/theme/core updates, website troubleshooting and recovery

**Infrastructure & Security:** Bitdefender, Wordfence, Imunify, OpenVPN, Tailscale, access control, bot mitigation, incident response, endpoint security

**IT Operations:** GLPI 11, asset and ticket management, Google Workspace Admin, user provisioning, onboarding/offboarding, Slack, Teamwork, Time Doctor

**Automation & Monitoring:** Bash scripting, scheduled checks, UptimeRobot, Synology backup monitoring, website status checks, SSL monitoring, backup transfer automation

**Platforms & Tools:** Supabase, GitHub, Acronis Cyber Connect, AnyDesk, Microsoft Excel, SAP, WMS

### PROFESSIONAL EXPERIENCE

#### Junior System Administrator | Primeview | Alabang, Metro Manila (WFH) | July 2025 - Present

- Administer Linux/cPanel hosting and WordPress environments using SSH, cPanel/WHM, Cloudflare, DNS, SSL/TLS, backups, permissions, log review, and production troubleshooting across multiple client websites.
- Support server migrations, infrastructure cutovers, backup/restore validation, uptime monitoring, website availability checks, and SSL verification.
- Develop Bash-based IT automation and GLPI workflows for asset/ticket management, website and SSL monitoring, backup transfers, recurring checks, incident response, and technical documentation, reducing monthly manual IT inspection effort by approximately 90%.

#### Technical Support Specialist (Tier 1) | Civicom Pacific Corporation | September 2024 - February 2025

- Resolved 50+ daily technical support requests through phone, email, and chat, troubleshooting software, account, access, and workstation issues while maintaining an 85-90% first-contact resolution rate.
- Provisioned user accounts, devices, permissions, and required system access for onboarding requests while documenting troubleshooting steps, findings, and resolutions for accurate ticket tracking.
- Escalated complex incidents with complete diagnostics and case notes, reducing repeat investigation and helping higher-level teams resolve issues faster.

#### Data Management Specialist | Civicom Pacific Corporation | April 2024 - June 2024

- Maintained and validated business datasets, supporting 99%+ record accuracy and data integrity across daily operational records.
- Improved data-processing workflows using Microsoft Excel, increasing processing efficiency by approximately 20%.
- Reviewed discrepancies, corrected records, and coordinated data updates across teams to improve reporting consistency and reduce rework.

#### Data Entry Operator | Metro Mandaue Service Corporation | Cavite | August 2021 - January 2023

- Managed inventory transactions and stock records in SAP and WMS to maintain accurate warehouse and operational data.
- Reconciled physical inventory against system records, maintaining inventory discrepancy rates below 2%.
- Validated item and transaction data and coordinated corrections with warehouse and operations teams to improve inventory tracking accuracy.

## PROJECTS & IMPROVEMENTS

---

**GLPI IT Operations Platform** - Implemented and expanded GLPI for IT assets, support tickets, software subscriptions, monitoring, domain/SSL tracking, and recurring IT administration.

**Admin & Hub Portal (Ongoing)** - Developing and enhancing Primeview internal Admin Center and Employee Hub modules for employee management, timekeeping, leave, payslips, calendar, performance evaluations, employee lifecycle, and role-based access control.

**Primeview Nexus (Ongoing)** - Developing and integrating a unified Primeview platform that combines PV Time, PV Chat, and PV Task, with Primeview Hub authentication, Windows desktop deployment, real-time communication, API integration, and Supabase-backed services.

## EDUCATION

---

**Information Technology - Applied Computer Engineering | Imus Computer College (ICC) | August 2023 - June 2025**

Computer Systems Servicing NC II coursework and hands-on training in computer systems, networking, and server setup.
